NET PROFIT DISTRIBUTION POLICY

1. Purpose

The FPT100 Net Profit Distribution Policy sets out the terms governing the distribution of trading profits to traders who successfully complete the FPT100 Competition, pass the FTMO Funded Evaluation and Confirmation stages, and subsequently receive a live funded FTMO Prop Trading Account through FPT100.

This policy forms part of the FPT100 Competition Rules, Terms & Conditions and all associated Programme Policies.

---

2. Net Profit Distribution

For the avoidance of doubt, all percentages contained within this policy apply solely to **net trading profits received by FPT100 from FTMO**, after FTMO has deducted its applicable revenue share, fees, charges or any other deductions in accordance with its own Terms and Conditions.

FPT100 operates a performance-based profit distribution model designed to reward trader consistency, discipline and long-term profitability. As traders demonstrate continued success and progress to larger funded account sizes, their share of net profits increases accordingly.

---

3. Net Profit Distribution Schedule

Live Funded Account Size	Trader Share	FPT100 Share
$10,000	**50%**	**50%**
$25,000	**60%**	**40%**
$50,000	**70%**	**30%**
$100,000	**80%**	**20%**
$200,000	**90%**	**10%**

The applicable Net Profit Distribution percentage shall be determined by the funded account size at the time the relevant trading profits are earned and distributed.

---

4. Profit Distribution Conditions

Profit distributions shall only be made after FPT100 has successfully received the corresponding payout from FTMO.

Where FTMO delays, withholds, suspends, reduces, reverses, declines or otherwise fails to make a payout for any reason whatsoever, the corresponding payment to the trader shall be delayed, reduced, suspended, reversed or cancelled to the same extent.

FPT100 shall have no obligation whatsoever to distribute profits that it has not first received from FTMO.

Only profits that have been verified, approved and paid by FTMO shall be eligible for distribution under this Policy.

---

5. Scaling

As traders progress to larger funded account sizes, the applicable Net Profit Distribution percentage shall automatically adjust in accordance with the Net Profit Distribution Schedule set out above.

Progression to a higher profit-sharing tier is conditional upon:

- Continued compliance with all FPT100 Competition Rules.
- Continued compliance with all FTMO Terms & Conditions.

- The trader remaining in good standing.
- Continued participation within the FPT100 Funded Trader Programme.

---

6. Suspension or Withholding of Profit Distributions

FPT100 reserves the right to delay, suspend or withhold any profit distribution where there is an ongoing investigation into, or reasonable suspicion of:

- Breach of the Competition Rules.
- Breach of FTMO Terms and Conditions.
- Fraud or attempted fraud.
- Market abuse or market manipulation.
- Prohibited trading practices.
- Misrepresentation or false information.
- Money laundering or other financial crime.
- Any conduct that may compromise the integrity, reputation or commercial interests of FPT100.

Where appropriate, withheld distributions shall be reviewed following the conclusion of any investigation.

---

7. Offset and Recovery

FPT100 reserves the right to offset, deduct or recover any sums owed to it by a trader from any future profit distributions.

This includes, but is not limited to:

- Profit distributions made in error.
- Administrative or calculation errors.
- Duplicate payments.
- Funds subsequently reversed or reclaimed by FTMO.
- Outstanding fees or charges lawfully owed to FPT100.
- Losses, liabilities or costs incurred by FPT100 arising directly from the trader's breach of these Competition Rules or any associated agreement.

Where a trader has received an overpayment, the trader agrees to repay such amount immediately upon written request.

FPT100 may recover any overpayment by deduction from future profit distributions or by any other lawful means available.

---

8. Independent Trader Status

Participation in the FPT100 Funded Trader Programme does not create, and shall not be construed as creating, any employer-employee relationship, partnership, joint venture, agency, fiduciary relationship or any other relationship of employment between FPT100 and the trader.

Each trader participates in the Programme as an independent contractor and remains solely responsible for:

- Personal taxation.
- Accounting obligations.
- National Insurance or social security contributions.
- Pension obligations.
- Regulatory obligations.
- Any other personal legal or financial liabilities arising from profits received under the Programme.

Profit distributions under this Policy are contractual commercial payments only and shall not be construed as salary, wages, commissions, employment income, employee benefits or any other form of remuneration associated with employment.

Nothing contained within the Competition Rules, Terms & Conditions or Programme Policies shall be interpreted as creating any entitlement to:

- Employment.
- Guaranteed income.
- Minimum earnings.
- Future funding.
- Continued participation.
- Ongoing profit distributions.

Participation in the Programme remains conditional upon continued compliance with all applicable FPT100 and FTMO rules.

Each trader further acknowledges that trading financial markets involves substantial risk and that past performance is not indicative of future results. FPT100 makes no representation or guarantee that any trader will achieve profitability, receive future funded accounts or generate any specific level of income.

The trader confirms that participation in the Programme is entirely voluntary and that they have had sufficient opportunity to obtain independent legal, financial and tax advice before accepting these Competition Rules.

---

9. Suspension or Termination from the Programme

FPT100 reserves the absolute right, at its sole discretion, to suspend or permanently terminate a trader's participation in the Funded Trader Programme where it reasonably believes that the trader has:

- Breached the Competition Rules.
- Breached FTMO Terms and Conditions.
- Engaged in fraudulent activity.
- Used prohibited trading strategies.
- Provided false or misleading information.
- Abused FPT100 staff, representatives or other participants.
- Engaged in conduct likely to damage the reputation or commercial interests of FPT100.
- Participated in money laundering, financial crime or other unlawful activity.
- Engaged in any conduct that compromises the integrity or fairness of the Programme.

Termination from the Programme shall not automatically entitle the trader to future funding opportunities or future profit distributions.

Any undisputed profits that have already been approved, received from FTMO and become payable under this Policy shall remain subject to this Policy and any applicable legal obligations.

---

10. Amendments

FPT100 reserves the right to review, amend, replace or introduce additional funded account tiers, scaling levels, profit-sharing percentages and Programme Policies as the Funded Trader Programme evolves.

Any amendments shall apply prospectively only and shall not affect profit distributions that have already been earned, received and become payable prior to the effective date of such amendments.

---

11. Acceptance

By participating in the FPT100 Competition, accepting a funded account through FPT100 or receiving any profit distribution under this Programme, the trader confirms that they have read, understood and agree to be legally bound by this Net Profit Distribution Policy together with the FPT100 Competition Rules, Terms & Conditions and all associated Programme Policies.
